**SUPERVISOR’S REMARKS**

A revised reimbursement contract has been received from The Wegman Group for attorney review.

Hodgson and Russ’ Attorney Spitzer has been approached as special legal counsel to advise on the Troutburg development. The Board gave consent to Attorney Sansone to forward the Consistency Review Law to Attorney Spitzer, to obtain his legal opinion as to which local agency is to take the lead on the project. After reviewing the document, his response was that although it is “not a clearly drafted law”, he opined that each agency with decision-making power must make its own determination. So, the Zoning, Planning and Town Boards will each have to complete its own consistency review of the proposed development.

The county legislature, the county health department, and the DEC have signed consent to turn over lead agency for the SEQR process for the proposed Troutburg development to the Town. The DEC did include ten pages of concerns to guide the town on specific requirements.

Supervisor Gaesser, Clerk Richardson, Councilman Joseph, and Highway Superintendent Kruger met with members of the Morton Union Cemetery Association and Cindy Craig, from the NYS Division of Cemeteries, to discuss options to keep the Association financially viable as long as possible, and the legal options the town has to provide assistance in maintaining this cemetery.

Supervisor Gaesser met with Orleans County Legislature Chairman Callard to discuss the current state of the town. Discussion centered on the Bicentennial celebrations, and the economic development potential of the Troutburg development, the new Marina ownership and plans, and the proposed restaurant in the former hardware store. The condition of county roads within Kendall was also discussed.

An informal meeting with the new owners of Eagle Creek Marina is scheduled.

A State of the County Address will be attended by Supervisor Gaesser.

**OLD BUSINESS**

MCWA – unmetered connection
Another letter has been received from the MCWA. They offer assistance as necessary to cap the unmetered connection. This must be capped, as it is against the charter not to charge for water. Superintendent Kruger wants MCWA to be responsible for hydrant markers and hydrant maintenance, and believes there was a type of in-kind agreement, but does not know if there is documentation of this. Supervisor Gaesser said dealing with this issue must come first, then other issues can be raised, and directed it be accomplished by March 1st. Councilman Joseph offered his assistance.

Highway 284 Agreement –
Should be submitted by March meeting
Mill Road work may start this season; agreement will be submitted.

Bicentennial
At last meeting, all seems on goal for scheduling and fund raising.
